<sup>1</sup>This document is a component of the author's MS thesis in Urban and Regional Planning (specialization in Coastal Environmental Planning and Natural Resource Management) from Florida State University. It is provided here to reach a larger coastal management community. The author's major professor was Dr. Robert Deyle.

## TABLE OF CONTENTS

LIST OF TABLES .....	iii
LIST OF FIGURES .....	iv
ABSTRACT .....	v
INTRODUCTION .....	1
Waves and Wakes .....	4
Tidal Currents .....	6
Dredging and filling .....	6
Sediment supply .....	7
Sediment type .....	8
Biological stabilization and destabilization .....	8
The role of sea level .....	9
MATERIALS AND METHODS .....	10
Polygon-based analysis .....	14
Point-based analysis .....	14
RESULTS .....	21
Polygon-based analysis .....	21
Point-based analysis .....	21
DISCUSSION .....	26
Erosion management alternatives .....	27
Policy governing implementation of management alternatives .....	31
FURTHER RESEARCH .....	35
CONCLUSION .....	36
GLOSSARY .....	38
APPENDIX .....	39
LITERATURE CITED .....	56
